

Call for Applications

29 PhD student positions at the Medical University of Graz, Austria

Application Deadline: March 21, 2010

The Medical University of Graz invites applicants for 29 PhD student positions in Molecular Medicine and Neurosciences with effect from 01.10.2010.

The programs provide cutting-edge education in basic principles of human diseases and therapeutics. The thesis projects will focus on various aspects of metabolic and vascular diseases, inflammation, cancer, stem cells, aging of the brain, and neurodegeneration. They will also integrate basic, applied and clinical sciences, as well as a wide spectrum of experimental techniques.

The programs offer multidisciplinary training in Molecular Medicine and Neurosciences in a productive and international environment. Successful applicants will integrate into research groups, carry out individual research projects and participate in lectures, courses, journal clubs, thesis seminars, congresses etc.

Accepted PhD-students will be employed for 3 years with a contract that includes social benefits. The positions are for students with a relevant Master's degree or equivalent in Medicine, Chemistry or Life Sciences.

English is the language used for teaching, communication and writing of the Thesis and thus, excellent English skills are required.

Applications must be submitted per email in full and using only the requested forms.

Further information and application forms are available at: <http://www.medunigraz.at/phd/>
